COOL, GOLD, AND COLLECTIBLE
LET'S HAVE FUN THIS YEAR

The Market in Depth

Our first issue of the year sees Gold Spot settling in at $1,107, a cool 27 percent advance over its January 2009 debut of $875. From the hobby vantage point, what is perhaps even more notable are the startling increases on select numismatic coins. For example, Type III $20 Libs in MS65 opened 2009 at $3,200. Today, these coins are actively sought at $5,000. MS64 $20 Saints began 2009 at $1,330. Today they are Bid $1,840. In the former example, this is a 56 percent increase, while the latter represents a 38 percent move, both far exceeding the rise in Spot.

Silver Spot begins the year at $17.54, or *63 percent* higher than its 2009 starting point of $10.78. Unlike the Gold coin market where premiums have actually increased as Spot increased, generic Silver coinage—apart from the American Silver Eagles—has languished in this regard. Maybe it is precisely the availability of the bright and shiny ASEs that accounts for the somewhat lackluster enthusiasm for other forms of generic Silver coinage. Incidentally, a major market-maker has removed his Bids for common date Uncirculated Morgan and Peace Dollars, and there is some concern that this could result in temporary softness to this market segment while he's away.

Dealers continue to report that quality and interesting coins are not being offered to them nearly as often as they would like. *Quality* refers mainly to surface originality and eye appeal, while *interesting* would refer to those coins, not necessarily "classic" rarities, but rather those well known to specialists within a particular series, as an especially difficult coin to locate, regardless of the coin's price tag. Of late, auction results suggest that "interesting" coins from the Seated Liberty series, like an 1871S Quarter in VF to AU, are in monstrously strong demand. Meanwhile, Bid is a fraction of its 1871CC counterpart, yet it is just as scarce, perhaps even scarcer in certain grades. Other examples in short supply, but on many dealers' want lists are variations of mintmarked coins from the Seated Liberty Quarter series, for example the 1843 Huge O, or the 1856 Lg S/Sm S.

The modified PCGS guarantee on Copper coins is now in effect and dealers will pay close attention to the possible ramifications in the marketplace. Only those Copper coins which have been retained by their original owners will maintain the color guarantee, while newly purchased and/or graded coins will have no guarantee.

Nine SS *Central America* Gold ingots have been reported as stolen. No other information is available at this time other than the fact that a $50,000 reward is being offered for information leading to the recovery of this material. The new year kicks off with the "First Show" in Orlando, Florida set for Jan 3-5 including an auction by Bowers & Merena on Jan 5. Then the FUN Show is scheduled for Jan 7-10, also in Orlando, and includes a sale by Heritage. Among the highlights of the Heritage auction are one of five extant 1913 Liberty Nickels. Also included in the sale is a 1943 Lincoln Cent struck on a Copper planchet and graded PCGS AU58. Among the more "interesting" items is an 1839 No Drapery Half Dollar—a first year of issue coin—graded PR62 by NGC, and considered by experts just one of three known examples.

This Week's Market

CENTS THRU HALVES: A flurry of subtle roll backs is settling in on several Washington Quarter rolls from the 1940s. Conversely, a buyer is anxious to acquire multiple rolls of Franklin Halves; most from 1957-1962 are now commanding an elevated $150.

MERCURY DIMES: This popular series has many devotees at listed levels. A well-known buyer has stepped in, hunting for a 1926D, willing to pay $1,900 for an MS65FB example, this reflecting a 20% advance over previous Bid. Buyers are also circulating requests for extended BU sets from 1934-1945.

WALKING LIBERTY HALVES: This attractive series finds multiple buyers still vying for top notch early rarities. The 1920s contingent finds that the tougher last installment of that roaring decade, 1929S, has rebounded as Gem representatives rise to $2,350. A flurry of activity for the ever popular short-set continues as many hobbyists take the first step here in building a collection.

DOLLARS: Certainly, an increase of over 60% in Spot Silver in the last year has brought many new aficionados to the fold, yet the action doesn't stop with generics. The prized keys and semi-keys muster considerable demand as evidenced by the wealth of viable supporting Bids for the majority in the MS63-MS65 columns. Peace Dollars maintain a core following as persnickety buyers look to ferret out well-struck, lustrous representatives, as MS64 Type moves up a notch to $38.

PROOF SETS AND MINT SETS: A trio of minor advances populate the Proof Set section. Complementing the affirmative, Mint Sets foster positive tidings with none dissenting and the popular 1976S 3 piece entry inching up to $11.

COMMEMORATIVES: Demand for original Classic Silver Commems hasn't relinquished its grip one iota as MS65-MS66 material is chock full of conforming Bids. While the 1926 Sesquicentennial claims a higher $325 Bid for Very Choice specimens, the 1921 Pilgrim finds MS66 examples easing back to $700. Once again, a few white sales exist for those doing their homework. The best prize for the astute was the popular Antietam as an NGC MS67 CAC slab was captured for $905. At least one dealer is still offering $975 for an example one grade lower. Classic Gold reveals no dissension as a more uniform Bidding blanket envelops the majority.

TYPE: As aggressive buyers scurry to capture eye appealing Type for customers and to bolster inventory for FUN, we observe that this arena is still a hot ticket. With none cast adrift, high grade collector quality Circ Liberty Seated Halves are in great demand as volumes of XF With Mottos are wanted at the elevated $75 level. Proof Type reflects an enthusiastic following too, with no apparent need for fire sales.

GOLD: As the yellow metal hovers around the $1,100 neighborhood, Gold is reflecting over a 25% increase since January 2, 2009. How has Gold Type fared? The perhaps underrated Type III $20 Libs in MS64 report in with a 68% advance in Bid, and even the more plentiful sister $20 Saint-Gaudens in MS65 command over a 42% escalation. The largest increase of the year, at least on paper, is the coveted conditional rarity Type II $20 Libs as MS65 and MS67 both roar in with a mammoth 150% increase.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

FUNDERWAY IN FLORIDA
CLASSIC GOLD COMMEMS HEAT UP

The Market in Depth

As we ease into 2010, there is no denying that the recession continues to weigh on all of us. We read the newspapers, and understand that while there is improvement in many sectors of the economy, there are still concerns. Many look to temperamental Gold Spot as a way of predicting the future health of the rare coin market. Others, apart from the overall health of the economy, which is a given for the coin market to flourish, move about in the secure knowledge that coin collecting in the US is not only alive, healthy, and well, but in fact has grown beyond our wildest dreams in the past ten years. A huge contributing factor to this growth is the internet, with its ability to facilitate the transmission of information, and now to complete transactions in an anywhere, anytime, anyway you want to do it approach has made the sale of rare coins a joy. The US Mint's relatively recent and strong appearance in the hobby with the Fifty-State Quarter program, the Westward Journey Nickels, and new Lincoln Cents, all of which are modern circulating Commemoratives actually used in commerce, is testimony to the Mint's dedication to the hobby of coin collecting. Their new programs, like the America The Beautiful Quarters, honoring 56 national sites over the next 12 years, and the 2010 Cent featuring a totally redesigned reverse, are further witness to their ongoing mission to bolster the hobby of collecting coins.

The fifty or so dealers that set up at the mild-mannered First Show arrived with perhaps some misgivings and apprehension about where the coin market is headed. Apparently, that mood was quickly replaced by optimism and an increasing enthusiasm for the 500+ dealer FUN Show, noting that Gold Spot's climb back over $1,100 to close at $1,118 on Tuesday certainly helped the situation. The 884-lot Bowers & Merena sale, which is underway as we go to press, features an AU55 1854O Double Eagle, holdered by NGC, and is presently Bid at $465,750. A Gem Mint State 1893S Morgan Dollar, also in an NGC holder, is next in line at $265,650. Outward trappings of this year's FUN Show would certainly seem to indicate more modest auction totals than in the past few years, where combined figures reached as high as $85 million.

Once the FUN ends in Florida, the Jan. 19th Teletrade sale, a 101-lot compilation of CAC stickered coins, will tide dealers and collectors over for a while at least. Then, the Goldberg's are set to conduct a Pre Long Beach sale, Jan. 31-Feb. 3 at the Crowne Plaza in Beverly Hills, featuring the Phyllis Thompson Large Cent collection. Dealers and collectors will then participate in the Long Beach Coin Expo, which is scheduled for February 4-6. Following the SoCal activities, it's off to Baltimore for the Whitman Coin Expo, slated for Mar 4-7, with Bowers & Merena as the host auctioneer. Finally, Fort Worth, Texas is the site of this spring's ANA Convention. The National Money Show, as the spring installment is called, is on the calendar for Mar 25-27.

This Week's Market

MERCURY DIMES: While not displaying a whirlwind of increased demand, Ms. Winged Liberty retains a captive Bidding audience. For the budget conscious collector, keys and semi-keys in problem free, pearly gray Circ enjoy a rise in interest. For the advanced hobbyist, fully struck lustrous stoppers such as the perennial favorites including the 1916D, both 1921 installments and the pair of 1942/1 over-dates remain ripe with supporting offers.

WALKING LIBERTY HALVES: Established buyers and savvy collectors are traipsing the bourse at FUN attempting to secure eye-appealing early keys as well as frosty white Gems to complete short-sets. In fact, a pair from the short stack report subtle advances which only heightens demand for the popular 20-piece subset, as the 1943S and '44S each inch higher in MS63.

DOLLARS: As demand and Bid for generic Circs have picked up, Morgans continue to address why they are so popular with collectors. Once again, supporting offers portend strength here as fortified Bids for the majority of keys and conditionally rare are bountiful, with accent on MS64 and better representatives. Peace Dollars chime in with the inaugural 1921 key finding aggressive buyers raising the ante in Gem, now commanding $1,500.

PROOF SETS AND MINT SETS: Action remains spirited in the Proof Set sector as advances out-muscle declines by 2-1, led by the 1979S Type II $70 offer. Mint Sets show a trio on the upward trek, highlighted by the still popular 2008 Set rallying to $46.

COMMEMORATIVES: Classic Silver Commems virtually hold serve as a prominent buyer's presence has solidified the lion's share in the collector favorite Gem and better classifications. In fact, only the conditionally scarce 1923 Monroe Doctrine is caught easing back slightly to $1,400 in MS65. Classic Gold is the story this report, as nearly two dozen modest, yet welcome plus signs are lighting up this popular series. Nearly all are participating, including the gargantuan Pan-Pac slug duo enjoying escalation in MS63-MS65. The leader on a percentage basis is the Sesquicentennial Quarter Eagle in MS66, riding a $400 advance to $9,600. With a combined PCGS/NGC population of 206 in this grade, and only 3 graded higher, a pleasing MS66 will have to suffice for most collectors.

TYPE: Although a few minor downward adjustments are observed visiting sundry Mint State columns, Type is definitely not getting the cold shoulder from buyers. With that said, the ever popular early 19th century workhorse of commerce, the Capped Bust Half, is addressing a higher offer in Gem as Bid climbs to $7,750. Proof Type delivers excitement in the Liberty Seated corner as No Motto Halves rise in a pair of columns, as do big sister Liberty Seated Dollars with No Motto PR65 examples topping $12,700. Popular Morgan Dollars get in the act, reflecting higher offers as PR64 examples claim $3,300.

GOLD: Double Eagles in MS62-MS65 have eased back on the throttle as there seems to be a bit of a decline in premiums early in January. Most better Gold Type is holding firm, though. Flashy Proof Gold Eagles peaked at $2,200 per oz when Gold was trading at its all-time high of $1,217. Current Bid on these IRA promoted products is now at $1,750.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

2010 FUN EXCEEDS EXPECTATIONS
$3.74 MILLION FOR "FIVE-0" NICKEL

The Market in Depth

The majority of sentiment was that the FUN show exceeded expectations on the bourse and at auction. While "The Great Recession", as it is now dubbed, had many participants on pins and needles at the beginning of this bellwether gala, those fears were largely abated as very healthy retail sales and strong wholesale activity set a much hoped for positive tone for 2010. In fact, several dealers reported having 7-figure shows. With a combined auction total of nearly $40 million, there was certainly much to celebrate. Adding to this excitement were multiple coins on the auction block graced with captivating stories, and quite high prices. Three coins that captured over one million dollars at auction include the "Hawaii Five-0" 1913 Liberty Nickel, graded NGC PR64 CAC, which realized $3.74 million; the conditionally majestic 1927D $20 Saint in PCGS MS66, which fetched $1.5 million; and the historically fascinating 1874 $10 Bickford Pattern that brought $1.27 million. Richard Nachbar held another sealed Bid sale at this year's FUN show. This 26-lot auction featured 13 CAC stickered coins and totaled nearly $750K. Three of the many highlights realized in excess of $100K including an 1831 $2½ Capped Bust graded NGC MS66 CAC, bringing in $105,000. Additional reports from Orlando indicated that coins in nearly all price ranges from $500 to $50,000 incurred a cadre of buyers when problem-free, original coins with eye appeal appeared. In that regard, the market is healthy, but decidedly more selective than two years ago.

The Jan. 19 Teletrade sale, a 101-lot compilation of CAC stickered coins, will hopefully satisfy collectors and dealers until the next big offering. The 3,113-lot Stack's Americana Sale, scheduled for Jan 26-27 in New York City, contains about 800 lots of Federal US coins. Among the highlights: a 1792 Half Disme, graded MS64 by NGC; a 1797 Half Dime with 16 Stars, graded MS66 by NGC, formerly in the collection of Louis Eliasberg; and an 1860D $5 Half Eagle graded MS63 by PCGS. A Pre-Long Beach sale by the Goldberg's is next, set for Jan. 31-Feb. 2 at the Crowne Plaza in Beverly Hills. Dealers and collectors will then participate in the Long Beach Coin Expo scheduled for Feb. 4-6. One of the many enticing features of the expo is the $10 million dollar "Ship of Gold" exhibit, including coins and a 50 lb. Gold bar from the SS *Central America* shipwreck. Following SoCal, it's off to Baltimore for the Whitman Coin Expo, slated for Mar. 4-7, with Bowers & Merena as the host auctioneer.

This Week's Market

CENTS THRU HALVES: Lincoln Cent rolls are being targeted as a swarm of modest advances visit this arena. With Spot Silver climbing back over $18, bullion sensitive denominations are besieged with a flurry of action riding on the white metal's coattails.

MERCURY DIMES: Keys to the series are faring well, although a pair of Full Banded S Mint keys from the roaring twenties, 1923S and 1924S, each eased back after solid examples sold for a discount at FUN. On the positive side, the final Philly delivery of 1945 found that an exemplary PCGS MS66FB realized $18,975 in FL. Demand seems to be heating up on the electronic trading networks for generic FB material too, as Gems and better are trading in heavy volume.

WALKING LIBERTY HALVES: The short-set remains hot, as a trio of San Francisco deliveries are climbing, led by the 1942S and 1944S in Gem, the former climbing to $400 and the latter topping $430. A series key, the 1919D, rolls back after a PCGS MS63 CAC specimen sold at retail auction.

DOLLARS: Conditionally rare material was certainly plentiful in the Sunshine State. While many high-end Morgans brought substantial prices, several eye appealing better dates, including a trio of popular San Francisco deliveries, 1901S, 1903S and 1904S each met with minor malaise at auction. In fact, standing supporting Bids helped break their fall further. A similar scenario is seen for Carson City Dollars in MS65 and MS66. Interestingly, Silver, generating little media fanfare as compared to Gold, is at $18.68, a high watermark dating back to July 2008. The rare coin market has certainly taken notice of Silver's rise though, and as a result, average Circ Morgan Dollars are in strong demand, with Bid now at $16.75 for those grading VG. Peace Dollar keys are stable, although the conditionally and scarce 1927 issue slid back to $2,800 in MS64.

PROOF SETS AND MINT SETS: A PCGS PR67 Roosevelt Dime from the modern rarity 1968 No S Proof Set captured $18,400 at auction in Orlando. A pair of Silver Sets are inching up, led by the 2008 Set claiming $49. Mint Sets may not visibly offer much excitement; however, supporting Bids are in the majority with none cast adrift.

COMMEMORATIVES: A 1924 Huguenot-Walloon graded NGC MS66 CAC was captured by an alert buyer for $443, some 37% less than an established standing offer. Classic Gold sees the 1903 McKinley inch up in the Very Choice column, while the 1905 Lewis and Clark Dollar dropped in the same grade.

TYPE: Once again, Liberty Seated Type is being targeted by calculating buyers, as Liberty Seated No Stars Dimes top $1,400 in MS63. Proof Type is also taking a shine to buyers as the popular Liberty Seated Type reflects increased demand. Leading the movement, obsolete four year Type Twenty Cent pieces find PR64 representatives boasting a higher offer of $3,900.

GOLD: Although $20 Saints drift back a tad in Gem, we note that buyers are zeroing in on some better Gold Type, especially with MS62-MS63 grades. Leading the rush, diminutive Type II Gold Dollars escalate in multiple grades as Choice examples post a solid $200 advance on their way to $7,400.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

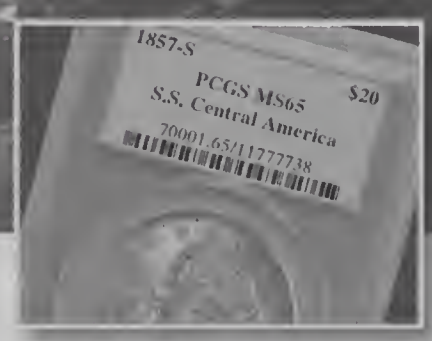
Attn: Coin Dealers

The "Ship of Gold" Sails Into Long Beach Feb. 4.

Are YOU On Board?



The *SS Central America* (aka Ship of Gold) exhibit is one of the biggest attractions you'll ever see at a coin show. That's why you need to be here!

Presented by Monaco Rare Coins, the Ship of Gold exhibit returns to the Long Beach Expo after a ten-year absence. Inside the 40-foot long representation of the ship's hull, coin enthusiasts and history buffs can view $10 million of the sunken treasure recovered from the *SS Central America* over 100 years after its ill-fated voyage from Panama to New York. It was called "the greatest treasure ever found" by Life Magazine, and in 2000, over 10,000 people lined up to have a look at our exhibit. We're counting on even more in 2010.

In addition to checking out the Ship of Gold and other stellar attractions, show attendees will of course want to see co*ins* – including yours if you have a table. To reserve your space or to inquire about special pricing and contract options for the Long Beach and Santa Clara shows, please contact Taryn Warrecker at **805-962-9938** or **taryn@exposunlimited.com**, or visit our web site, **longbeachexpo.com.** Don't miss this golden opportunity to display your coins!

CDN — Our 48th year...

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVIII No. 4 January 22, 2010 *. . .a Friday morning report on the Coin Market*

PRECIOUS METALS REBOUND
DEALERS EXCITED ABOUT TWENTY TEN

The Market in Depth

A subdued, but decidedly positive, upbeat tone is ringing along the numismatic lines of commerce as dealers report to us from regional and local coin shows. The Tucson Coin Show, typical of the type of regional shows that bring together dealers fresh from a major convention, as well as "locals" that set up just once a year, are bread-and-butter events. In many respects, such shows are as important to a dealer's bottom line as are the major conventions. Tucson was described by most as a good, solid show.

Gold is on the rebound, having started the year somewhat shaky, but has now firmed, returning to $1,140 an ounce. The "real" story, frankly, is Silver, as of this writing, straining at the $18.75 pull-up bar. Just a little bit more muscle it seems and one can almost feel the easy street of $20. *If* it does get its chin over the bar at $20, then perhaps there will be a whole new outlook for 2010. Staying with "what is", activity on Circ Morgan Dollars remains robust.

The coin shows irreverently dubbed "trade-and-grades" – despised by some, praised by others – are back in the form of the NGC Invitational and the PCGS Members Only events. As the shows' names suggest, a core group of dealers are in attendance. Each dealer submits a group of coins for grading and eagerly awaits the speedy return of the coins on the bourse of the associated show. The NGC happenings are set to take place in Sarasota, Florida this week with only a dozen or two dealers expected to attend. PCGS has settled on Las Vegas as the host town for its Members Only club and have announced four shows for this year under the "Members Only" banner. These are of course, separate from the expos also conducted by PCGS.

The 3,000-plus lot Stack's Americana Sale, scheduled for Jan. 26-27 in New York City, is the next major numismatic event. The auction will be held in the plush setting of the company's auction gallery on Fifth Street. This auction will be followed by the equally resplendent Goldberg's sale, Jan. 31-Feb. 2, at the Crowne Plaza in Beverly Hills. Dealers will then head to the Long Beach Coin Expo, Feb. 4-6. On display at this year's expo, along with the Ship of Gold, is the Dale Friend Half Dollar set. This collection has earned the number one ranking in the PCGS Set Registry. Baltimore hosts the next big show, the Whitman Coin Expo, Mar. 4-7. Bowers & Merena, official auctioneer of the expo, has announced their sale of US and World Coins, set for Mar. 3-7.

This Week's Market

MERCURY DIMES: A half dozen better date issues in grades MS64-65FB have decreased as a direct result of poor retail auction performances in Florida. Generic material with Fully Split Bands are stable in MS64FB and higher as are key dates in any condition.

WALKING LIBERTY HALVES: Some slight adjustments, both positive and negative, have been recorded for Walkers. On the positive side, at least one dealer is actively pursuing select dates and grades by way of posting higher Bids. The short-set also remains in demand with buyers continuing to pay current levels, with the focus primarily on those graded MS64.

DOLLARS: For the most part, Morgans are stable, though we continue to see a troubling number of solid examples sell in retail venues for less than dealers are offering to pay wholesale. A few of those selling for less than current Bid include Gem examples of the '78CC, '87S, '89S, and '94S. A couple others include the '03S in MS64, and '79 in MS66. Peace Dollars are steady, aside from the recent abundance of slightly better Circ issues offered for less in VG and F.

PROOF SETS AND MINT SETS: This area of the market is healthy, and a Tennessee dealer recently announced that he will take quantities of any set that has a Bid of $4.25 or less. Dealers remain short on 2008 material, both Proof and Mint Sets, and are raising Bid to acquire some for inventory.

COMMEMORATIVES: On the surface, Silver Commems seem strong, with at least one buyer in place, willing to pay current Bid, for nearly every issue in grades MS65-MS66. Under the surface, the retail auction results tell a different story. Solid examples continue to sell for substantially less than current dealers' buy prices. Albany and New Rochelle, both in MS66, sold for as much as 30% below active Bid. Gold Commems are similar in the sense that buyers remain available for nearly all issues in MS65-MS66. In fact, buyers are paying current Bid for 11 of the 13 in Gem, including the pair of $50 Pan-Pac slugs.

TYPE: A few minor adjustments have taken place in Uncirculated Type in grades MS63-MS65. Circ Type continues to have strong collector demand, and remain unchanged. Proof Type reports in with a couple declining a bit, including the Liberty Nickel With Cents in PR65, and Seated Quarters with motto in PR63. For the most part, a number of buyers remain in place for the majority of Copper in PR63-PR65, in addition to select Silver material in like grades.

GOLD: Even though Gold Spot is making another run upward, now at $1,140, generic Gold Type continues to soften across-the-board. This year will begin with American Eagle bullion coins being rationed. In addition, authorized dealers of the Mint will be required to purchase one 2009 dated AGE for every three of the 2010. This will likely result in higher premiums for 2010 material while 2009 Eagles may end up in weaker hands.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GOLD TYPE NOT ONBOARD
MARKET QUIET PRIOR TO LONG BEACH DOCKING

The Market in Depth

This is a traditionally quiet time for the market, the few weeks in between the FUN show and the first Long Beach of the year. Many "big" coins sold in Orlando, including three that broke the million-dollar barrier and another 40 plus that sold into six figures. Nevertheless, fewer auction houses conducted sales, and the overall dollar amount of coins transacted was down considerably this year in comparison to the totals going back to at least 2007. This signals perhaps a downsizing and consolidating market for 2010. Dealers are taking stock of their particular situations, arranging inventory to more concisely mirror their clients' wants, and further taking into account the present and pressing economic realities. These realities stretch well beyond the confines of the rare coin market—a situation unprecedented for a sizable portion of this generation's rare coin dealers.

Silver looked well on its way to a new plateau last week, but has since softened and is presently trading near $17. Gold appeared to be firming in the $1,150 region, but it too softened and is presently right around the $1,100 level. We have not observed any "dumping" of Circ Morgan Dollars by virtue of the lower Silver Spot price. There is a continued softening, however, on generic Gold coins as reflected in the US Gold chart below.

The Ira and Larry Goldberg sale is set for Jan. 31-Feb. 2 in Beverly Hills. Of particular note at this auction are the Proof Barber Half Dollars. These coins, in addition to technically high grade, boast toning patterns that result from a coin having rested quietly in a cabinet for decades. Many of the participating dealers at this sale will then head to the Long Beach Coin Expo, Feb. 4-6. Heritage will host an auction at this expo on Feb. 4, 5, and 7. We have included a list of highlights herein. Scotsman is set to conduct a sale on Feb. 12 in Saint-Louis, Missouri. This auction is also presented online at scoins.com. The 900 plus lots are collector oriented, including five examples of the 1916D Mercury Dime. Baltimore is host to the next national convention, the Whitman Coin Expo, Mar. 4-7. Bowers & Merena is the official auctioneer of the expo and has announced their sale of US and World Coins, beginning Mar. 3. The next major numismatic event is the ANA National Money Show, scheduled to open to the public on Thursday, Mar. 25 and run through Sunday, Mar. 28. A change in policy will exclude Early Birds from attendance on the bourse on Wednesday, Mar. 24, which is the dealer setup day.

This Week's Market

CENTS THRU HALVES: There are a large number of adjustments, positive and negative, to encourage dealers to take a look at their inventory with regard to this market segment. Is it time to sell off what is sitting in the vault, or should one hold certain items in anticipation of increased interest? Lincoln Cents remain active, mostly on the upswing with advances outnumbering declines by roughly 2:1. This may be connected to the excitement surrounding the release of the freshly designed 2010 Lincoln Cent with the return of the Brenner designed obverse, and totally new Civil War era shield reverse. Bullion sensitive issues are lower as a result of a declining Silver Spot.

MERCURY DIMES: This series is well supported for the majority of issues grading MS64FB and MS65FB, including the overdate. Over the last few weeks, several hundred generics in these grades and higher have been selling routinely on the electronic dealer trading networks, sight-unseen. At least one dealer is looking for 2 BU Rolls of the 1943D at $525 per.

WALKING LIBERTY HALVES: The 1923S and 1933S are still needed virtually across the grading spectrum with the '23S moving up 10% in AU50. Short-set dates are active in MS63-MS65 with one MS65 CAC stickered set currently being offered retail for just a little more than Ask. According to the pops, only 18 CAC approved sets can be made. All in all a nice showing for this ever popular series and indicative of the strength in the current market for high quality examples of semi-key date coins.

DOLLARS: The 1879CC in AU, and the 1879CC Capped in MS60, and MS63 are on the move upwards along with the 1884S in MS60. The strongest support is for Gem Unc examples, where we still see some issues selling for less than Bid at auction. Lack of Bidding support for Peace Dollars allows the 1928S to slip in MS63 and the 1935 to falter in MS64.

PROOF SETS AND MINT SETS: This robust and active market segment continues to generate a sizable portion of the business done by many operations throughout the country. The 2008 Proof and Mint Sets remain red hot, with the giant American Legacy Set now Bid $100. Virtually all sets, both Mint State and Proof, priced $5 and below have visible buyers paying at or near Bid.

COMMEMORATIVES: A number of plus signs, mostly in the higher grades of MS65 and MS66 and for issues ranging in value from a few hundred dollars to well into the five figure range, have been recorded. Many of these higher Bids are for a single coin, and may be filled quickly, as this type of material is generally available in the marketplace, and on occasion, will sell for less at retail auction.

TYPE: The lone adjustment on the Uncirculated chart adheres to the austere Liberty Seated Quarter of the No Drapery Type in MS65. Bidding activity on this chart is widespread, especially for early Nickel and Silver. Circulated Type remains equally well-supported, with at least one buyer currently needing up to 30 Draped Bust Large Eagle Dollars in VG-VF. Proof Type remains strong throughout, with only a single decline to report.

GOLD: Gold at this moment is below $1,100, and the impact to the market is palpable. Gem $20 Saints have dropped $180 since our last installment. Many of the issues within Gold Type are substantially lower than the first of the year when Gold Spot was $1,107. some by nearly 20%.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

LONG BEACH PUTS MARKET TO THE TEST
GOLDBERG SALE: $2.8 MILLION & COUNTING

The Market in Depth

Numismatic activity takes place on the national level this week, and at a pretty brisk pace. The Goldberg's sale, which began Jan. 31, concludes Feb. 2, and the auction to this point has realized in excess of $2.8 million, with the final session of US Gold coins still in the wings. The first 254 lots of the sale was an offering of James Conder Tokens, special in this case as the vast majority are certified by NGC at the MS64B level and above. This marriage of esoteric material with third-party certification potentially opens the market to a much wider range of collectors. The Long Beach Expo is set to open its doors to bourse dealers for setup Feb. 3. Dealers are already in town making pre-show deals, and enthusiasm has been given a boost by the recent up-tick in bullion levels. Many dealers and collectors will no doubt bring this excitement and optimism with them as they head to the first session of the Heritage auction on Thursday.

While the country may just be slowly coming out of the grips of a recession, and yes the coin market appears to have contracted somewhat, let's not kid ourselves: this market is huge and thriving. There is a massive audience via television and the internet that runs 24/7. Sometimes there are two and three competitors facing off in coveted time slots for cable and satellite TV. Also, the internet has niche after niche of sellers who specialize in every series of US coins. Some will make a purchase at Long Beach and have the coin listed on the net an hour later. The celebrated auction houses we all know do pretty much everything on the internet that they can do on the auction floor. In addition, there are "mom-and-pop" shops which have been in business for 25 years or more – some of these folks have reported their best years ever in 2009, even while being wary of internet selling. The point is that everybody is doing business together, in quite varied forms, and there is a lot of business to be reckoned.

Gold Spot's retreat from the peak of $1,217 is not as dramatic as the softening of US Gold coin prices, even with the recent rebound to the current level of $1,117. Silver, which looked poised for a run not too long ago, soared as high as $18.78 two weeks ago. Ironically, activity on Circ Morgan and Peace Dollars remains solid at current levels even with Spot down considerably, now at $16.74 per ounce.

Scotsman is set to conduct a sale on Feb. 12 in Saint Louis, Missouri, where the Saint Louis Numismatic Association will hold their 46th annual coin show, running until Feb. 14. Baltimore provides the locale for the next "biggie" convention, the Whitman Coin Expo, Mar. 4-7. Bowers & Merena is the official auctioneer of the expo, and they will conduct their sale beginning Mar. 3. The ANA National Money Show, scheduled to open to the public in Fortworth, Texas on Thursday, Mar. 25, will run through Sunday, Mar. 28.

This Week's Market

MERCURY DIMES: The 1942/41D is needed at full Bid in MS64FB and MS65FB for quality coins at the assigned grade level. Another key date, the 1916D is also in demand with higher Bids recorded in XF40 and AU50, now at $5,200 and $7,800, respectively.

WALKING LIBERTY HALVES: Minor upward adjustments are in place for a couple of issues, while the 1937D and 1938 adjust downward, but only slightly. Short-set coins are being sought at close to Bid in MS63 and MS64.

DOLLARS: High-cnd Morgan and Peace Dollars still have quite a following, with only a pair of Carson City issues dropping this time around—the '92CC in Gem, and the '93CC in Very Choice. Generics are very active, with supplies reportedly thin, though Bids still remain unchanged so far.

PROOF SETS AND MINT SETS: Mint Sets continue to have a number of buyers available at Bid. Nearly all sets from 1965 to date are needcd, especially for the less expensive sets where TV dealers are looking for them by the truck load. Proof Sets are also active, though mixed, with minor advances and declines.

COMMEMORATIVES: Bids continue to climb for Silver Commems in grades MS64 and higher. Several in MS65-66 that are not going up still have at least one visible buyer at current levels, albeit not for quantities, but rather for a single coin. Classic Gold Commems maintain the status quo. A $50 Octagonal slug in an old PCGS holder and graded MS62 is currently being offered wholesale for $62K, with the caveat that only legit and fast payers need inquire. Modern Commems, both Gold and Silver are mixed with buyers available at Bid for many Proof Dollars, and will take quantities. A few slightly better Modern Gold Commems in Mint State are the targets of higher Bids with the $5 Capitol Visitor Center, now at $1,700 and the $10 First Flight at $675.

TYPE: Flying Eagle Cents are higher in MS60 and MS64, now at $275 and $1,100 respectively. In addition to Copper, the remainder of Mint State Type has visible buyers present for the majority of issues in Nickel and Silver, especially in grades MS63-MS65. Indian Head Cents move higher in PR64B and PR65B as does the same issue in PR65R. Collectors are out there looking to acquire these relatively low mintage, low population Types while the getting is good. Proof Twenty Cent Pieces have declined to $8,250 in PR65 by virtue of a recent auction appearance of the slightly more readily available issue of 1875.

GOLD: Mint State Gold Type remains soft, and may soon represent a buying opportunity, especially with Spot on the move upward. Type II $20 Libs are once again receiving Bidder attention in MS63 and MS65, just in time for the Ship of Gold display at the Long Beach Expo. 2008 Gold Buffaloes continue to increase, for both Proof and Burnished versions while Proof American Gold Eagles suffer, now Bid $1,460 an ounce.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

$100 Million Milestone

CAC has passed the $100,000,000 milestone by leaps and bounds

In just a short amount of time, CAC has purchased more than $100 million of CAC verified coins from the dealer community. With that milestone now well surpassed, CAC continues to race on, seeking and purchasing stickered coins. That's because CAC strongly stands behind coins with the "green bean" as an active bidder in the market. And as CAC stickered coins gain recognition for trading at a premium, you can only imagine how fast the next milestone will be passed.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade.

It's no wonder CAC confidently purchases stickered coins. If you want to easily identify and have confidence that a coin is solid for the grade - look for the CAC verification sticker.

Single copy price $4.00 Vol. XLVIII No. 7 February 12, 2010 *...a Friday morning report on the Coin Market*

HERITAGE SALE TALLIES $8.8 MILLION
LONG BEACH PROVIDES PLEASANT SURPRISE

The Market in Depth

Simply consider that well over $15 million worth of coins traded hands at public auction in less than one week's time, and it is clear that this market is quite active. Highlights from the Heritage sale (listed herein) reflect the sometimes strong prices paid for CAC approved coins and other above average quality pieces. To be sure though, prices for high-grade Type, and Morgan Dollar keys are for the most part adjusting downward. The good news is that these coins are trading, especially in the $5,000 to $10,000 range, a signal that perhaps a broad-based contingent of dealers is ready to buy and sell at the new levels. Unfortunately, the Long Beach "curse" gained even more of its urban myth status this year as Gold and Silver tanked. Indeed, Gold Spot fell nearly $50 on Thursday, the show's opening day. Friday, Spot spilled off another $10 and headed into the weekend at the $1,052 mark, a 5 percent decrease in two trading days. Silver Spot started Thursday at $16.31, then lost nearly a dollar to close at $15.34. Still dropping on Friday, it finally closed at $14.82. This translates to a 9 percent correction in two days for this least expensive of the precious metals, and could prompt collectors to take advantage of a perceived buying opportunity.

Lest one think that Spot's precipitous decline would translate into doom-and-gloom on the Long Beach bourse, all one had to do was look around and see that there was widespread, good energy emanating from dealers and collectors. Dealers who cater to the buying public, their tables manned by upwards of four staffers, often had lines two or three persons deep waiting to ask about coins and view inventory. Wholesale oriented dealers, or those dealers who look to buy at Long Beach and bring material back home (or post on the internet), were busy looking over deals. Foot traffic was solid, and the Ship of Gold exhibit commanded significant attention, with a crowd, albeit friendly, jockeying for position with digital camera in hand. Many dealers shared with us that they did not have high expectations heading into the show, and in that regard, most concluded that the show in fact exceeded their expectations. Several reported to us that this year's expo was significantly better than their last experience in Long Beach.

PCGS is hosting another Members Only show at the Venetian Hotel in Las Vegas, Feb. 17-20. Baltimore will host an expo running Mar. 4-7, with the official auctioneer Bowers & Merena beginning their sale Mar. 3. The ANA will be held in Fortworth, Texas Mar. 25 thru Mar. 28.

This Week's Market

CENTS THRU HALVES: The minus signs reflect mostly bullion sensitive issues by virtue of the $2 per ounce drop in Silver Spot since our last report on this segment. Lincoln Cent rolls advance handsomely for select issues from the '50s on. Kennedy Half Dollars are also on an upward trajectory with at least one dealer willing to purchase any BU roll for $12, while a couple of Franklin issues have been targeted for acquisition at higher levels, specifically the 1954 and the 1959D.

MERCURY DIMES: Ongoing, widespread demand for Fully Split Band issues and better date material remains firmly in place. A few Bid jumps are seen for lustrous, white examples from the teens and twenties in grades MS64FB-65FB.

WALKING LIBERTY HALVES: Walkers remain stable overall, with a couple minor upward adjustments found within the short-set in Very Choice condition. A higher offer of $2,100, roughly 5%, is in place for 1935S examples in MS65. Proof examples remain a bit on the soft side.

DOLLARS: Morgan Dollars have taken a hard shot on the chin as a result of a pummeling at auction with over a dozen issues dropping in grades MS64-MS67. The biggest hits were taken by the 1883S in MS65—losing $10,000—followed by the 1890CC in the same grade, and the 1882O/S in MS64. Peace Dollars are fairly stable, with only a single decline, that being the 1924S in MS65, a PCGS pop 70 coin with only five graded higher. Zachary Taylor Presidential Dollars were the last issue of 2009, and one was recently found with an incused edge date of 2010D, mixed in a roll of Sacagaweas with the Native American reverse.

PROOF SETS AND MINT SETS: Both Proof and Mint Sets charts are status quo this week, but not for lack of offers to buy and sell. When items are offered at a discount, the seller either requires the purchase of a large lot or acknowledges that the product is somehow inferior and not **Greysheet** quality. Offers of 20% over Bid are being tendered for several Proof and SMS sets, still sealed by the US Mint.

COMMEMORATIVES: At first glance, Silver Commems appear strong, with a number of advancing issues recorded. However, upon closer examination, several of these coins, even with CAC approval, have been selling for less at retail auction, leaving many bewildered. Some examples from the Long Beach Expo auctions include the Lexington in MS65 CAC, which sold for $431 versus a $521 Bid; the California in MS66 CAC, selling for $920 versus a $1,000 Bid; and a 1935 Spanish Trail, MS64 CAC hammering $1,380 versus a Bid of $1,460. Even with a handful of declines in Gold Commems, virtually every issue in grades MS64 thru MS66 has buyers available at current Bid.

TYPE: A number of declines are seen for Circulated Silver Type for coins priced over $1,500. Uncirculated Type is active overall with only a few minor declines to report. Proof Type is generally strong across-the-board, although Walkers have been lowered in PR65 by way of weak auction prices realized.

GOLD: Even though Gold Spot has recovered somewhat from its dramatic decline during the Long Beach Expo, Generic Mint State Gold Type continues to weaken. In fact, a number of the major players in this field have removed their buy offers altogether, though some have recently returned. Better Gold Type, such as High Reliefs, Type I and II $20 Libs, and Type II Dollars remain stable.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" [illegible]. In the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series [illegible] bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices [illegible]. Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN [illegible]

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVIII No. 8 February 19, 2010 *...a Friday morning report on the Coin Market*

METALS REMAIN VOLATILE
WEATHER NO PROBLEM IN ST. LOUIS

The Market in Depth

Extreme weather, including record breaking snowfall in areas throughout the Mid-Atlantic region, forced businesses, schools, and the Federal Government, including the U.S. Mint, to shut down last week. Anyone traveling to or from those regions hardest hit were inevitably impacted. We received numerous reports from dealers indicating disrupted travel plans, including those who were returning home from the Long Beach area. Coin shop proprietors in particularly hard hit locales were unable to open their doors for business. Fortunately, this historically brutal weather did not prevent the St. Louis, Missouri show, Feb. 12-14, from going off as planed. Indeed, the show was described by one dealer in attendance as "very active...tons of retail and lots of wholesale business being done. PQ and CAC coins trading at Grey and more, while non-CAC quality coins traded between Blue and Grey." Further comments from this dealer and others, and we tend to agree with the sentiment, indicate that lesser quality coins (slabbed or not) are—to put it mildly—sluggish. Scotsman also held an auction in St. Louis, that brought sales of over $859K with very active participation throughout. The 950+ lots of collector oriented material included a High Relief Wire Rim Saint, graded PCGS MS63, which realized $24,150; an extraordinarily toned 1865 Liberty Seated Half Dollar, NGC PR65, garnered $5,750; and an original 1836 Gobrecht Dollar graded PR30 by PCGS, which hammered home $9,775.

Gold has broken above the $1,100 per ounce mark, presently in the $1,120 range, while Silver, after a precipitous fall, has climbed back over $16 an ounce. The market for low-grade, common date Morgan and Peace Dollars remains robust with multiple dealers vying for large quantities at present Bid for grades VG to VF. As the rare coin market settles into a rhythm that has necessarily incorporated the economic downturn, more than a year old at this point, we want to revisit one of the basic premises of how prices are established. For the most part, Bid increases are fueled by demand, demonstrated by a dealer raising his/her buy offer over the previous level. There is, of course, the presupposition that the higher offer to buy is placed in good faith, meaning that if the dealer is presented with, at minimum, a problem-free example that is solid for the grade, it will be purchased at that Bid level. In the absence of visible buyers, sales, or offers to sell, that take place near or below sheet levels usually result in minus signs.

The numismatic road schedule includes the PCGS Members Only show, which is set for Feb. 17-20 in Las Vegas. These thinly disguised "trade-n-grade" venues are certainly not retail oriented affairs. Next on the big circuit is Baltimore, Mar. 4-7, and includes an auction by Bowers & Merena. Bowers' newly redesigned website presents the sale as a six-session affair, the first and third sessions dedicated to U.S. coins. Stack's will host a pre-Baltimore auction March 2-3, featuring selections from the Eliasberg, Jr. estate and Krause collection. A preview is included herein. The ANA National Money show comes to Fortworth, Texas Mar. 25-28.

This Week's Market

MERCURY DIMES: Choice Unc. Mercury Dimes are harder to find at current levels than some of us might think. One dealer has upped the ante on the 1917 Philly and six other issues hoping to acquire what he needs for inventory. Bidding support is ample for select issues, but in general, Mercs are in need of some additional action such as a promotion of some kind.

WALKING LIBERTY HALVES: A handful of some of the monsters from this series—1920D, 1920S, 1921, and 1921D—are still needed in MS65 at or near present Bid. There is tremendous support for issues dating from 1936 to the end of the series in MS63 and MS64. Demand for the rest of the series is lagging; fortunately, discounted sales did not negatively impact the series this week.

DOLLARS: Morgan and Peace Dollars are mixed. The 1927 Peace Dollar drops around 15 percent from $2,800 to $2,400 for coins graded MS65. Dealer Bids are widespread for MS63 and MS64 for both series, yet we continue to see coins going off at or below current levels, in particular the very popular, but maxed out, CC mintmarked coins. The 1921 Peace Dollar, always held in high esteem by collectors, fights its way to $51,000 for Superb Gem examples. The combined pop is an elusive 13 coins, whereas 252 live in MS66 holders.

PROOF SETS AND MINT SETS: This extremely active niche enjoys support for Proof Sets from 1958 to date and for Mint Sets from the inception of those sets in 1947 to the present. The gigantic 2008S American Legacy Proof Set and the 2008S Silver Proof Set both enjoy advances this week. The "regular" 14 piece 2008S Proof Set peaked at $82, and has now dropped back to $75 as a reflection of recent offers to sell.

COMMEMORATIVES: Buyers are visible for most issues, both Gold and Silver, in grades MS65 and MS66. At the same time, we want to mention that nice examples continue to sell for below Bid at retail auctions. Isabella Quarters are now at a cool $5,000 in MS66. BU $5 2001W Capitol Visitor Center issues are now Bid at $1,900—up $200 from last week.

TYPE: Circ Type reveals that Liberty Seated Dollars advance to $220 for Good examples and $250 for those in Very Good condition. The West Coast dealer responsible for these Bid increases states he needs these puppies in quantity. Uncirculated Type shows no outward signs of movement, but we did see many Type coins sell at or below current levels suggesting the coins were not of sight-seen quality. Gem Proof Barber Dimes and Very Choice Liberty Seated Quarters With Motto lose some ground after selling at auction for a discount.

GOLD: Gold's recent surge above $1,100 has resulted in an about face for many of the coins listed below. The advances are rather modest, perhaps signaling some trepidation on the part of market-makers. Overexposure to this type of material in the event the current Gold rally fizzles is much harder to remedy than is the need for more material where a higher Bid often solves that problem. American Proof Gold Eagles, having been treated like an IRA red-headed step-child, are on their way back, now at $1,550 an ounce.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a price on above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

Fox Business Network

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

Jim Kingsland,
Editor

Coin Values, August 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

Mark Ferguson

The Coin Dealer Newsletter

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

August 14, 2009

Ira and Larry Goldberg Auctioneers

"It is very simple, CAC coins bring premiums!"

Larry Goldberg

Stack's

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. David Bowers,
Chairman

Bowers and Merena Auctions

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

Steve Deeds,
President

Heritage Auction Galleries

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

Todd Imhof,
Executive Vice President

DLRC Auctions

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

John Feigenbaum,
President

NINE YEAR BULL RUN
MONEY EARNED AND LESSONS LEARNED

The Market in Depth

The market for rare coins is wonderfully diverse, attracting people from all walks of life. We are in the midst of a bull run for coins that is nearly nine years old. The last bull market back in 1989, driven by Wall Street speculative investments, was short-lived, only lasting about a year, like so many of the others before it. The current wave differs not only in how long it has lasted, but very importantly, by the fact that it has been driven by *collectors*. The US Mint's State Quarter program, as well as the Sacagawea Golden Dollar, certainly had a lot to do with initiating this amazing coin renaissance. Other contributing factors that can't be ignored are record breaking strength in precious metals, the internet (which did a lot to facilitate sales and level the playing field for collectors gathering powerful numismatic information), and of course, at least up until recently, a generally strong economy. This convergence of multiple factors was very, very good to the coin market, resulting in many coins doubling, tripling and even quadrupling in value.

Over the last decade or so, the hobby has benefited greatly in more ways than simply lucrative business. Grading services, both PCGS and NGC, have recently tightened up, providing more confidence to consumers. Coin conservation has bloomed as well, making a new market for damaged and problem coins by encapsulating them. Loan and depository businesses sprouted up, expanding the purchasing options for collectors and dealers greatly. Much more recently, CAC came on the scene, giving yet another shot in the arm to the hobby by allowing newbies to buy with a more secure feeling than ever, and inspiring dealers to venture into series where they would not have gone otherwise. Of course, it's not all been roses. With demand high, the problem of counterfeits has been growing in quality, quantity and sophistication, resulting in a multifaceted effort from numismatic institutions to control the problem. New anti-counterfeit slabs have been created as well as public awareness campaigns designed to both warn consumers as well as provide them with diagnostics. Additional changes in the industry are on the way to continue to combat the problem of counterfeiting. Amazingly, in spite of all the negatives, and in the midst of a recession, unemployment rates not seen in 25 years, and ongoing bank failures, some dealers considered 2009 their best year ever, and some of these same dealers have enjoyed a strong start in 2010.

Baltimore is set to host the next national scale show Mar. 4-7, with two auctions on tap. First, the Stack's Sale set for Mar. 2-3, followed by Bowers & Merena, the host auctioneer in Baltimore, set to conduct its sale Mar. 4-6. On exhibit at the show will be the top 100 Liberty Seated Dime varieties, as well as numerous other Registry Sets ranked #1. Teletrade is scheduled to sell a PCGS pop 2 PR70 1995W ASE on Feb. 28, in addition to holding a CAC only sale on Mar. 9. The ANA National Money show comes to Fort Worth, Texas Mar. 25-28 with Heritage as the host auctioneer.

This Week's Market

CENTS THRU HALVES: A phenomenal amount of activity is noted throughout these listings. Lincoln Cents are seeing most of the advances, perhaps in anticipation of promotions involving the newly released 2010 Union Shield Cent. Look for these new Cents to be available in the coming days as the exchange was rescheduled from an earlier date— due to extreme weather— to Feb. 25 in Washington D.C. Numerous BU Rolls from 1982 and 1983 are advancing. Mint Sets were not produced in these years, which has fostered ongoing demand for these business strikes.

MERCURY DIMES: Dealers are indicating a desire to purchase accurately graded coins in MS63 and better condition - certified or not - at Bid or higher, though said dealers decline to include specific numbers. Higher grade, Full Banded material remains strong throughout.

WALKING LIBERTY HALVES: Walkers are well supported from the 1933S onward in grades MS63 and MS64, but the coins have to be brilliant, or very nearly so, and well struck. A discounted sale of the 1929D in MS65 results in a drop in Bid. Short-sets remain popular in MS63 and MS64 and are still needed at current levels.

DOLLARS: A handful of adjustments grace the Morgan and Peace Dollar listings. The recent discounted sale of an 1883S in MS65, which resulted in a decline to Bid, now leads one dealer to re-up and place a $38,000 Bid on this PCGS Pop 15 issue. The 2010 Sacagawea Dollars with Native American reverse are now listed as are the 2010 Fillmore Presidential Dollars including Proof issues.

PROOF SETS AND MINT SETS: The 2008 American Legacy Proof Set advances once again, this time to $115 Bid. Nearly all Proof Sets are desired at or near Bid from 1955 to the present. Mint Sets are nearly as strong with only a few minus signs appearing for select dates. Homemade P & D Mint Sets for 1982 and 1983 are also wanted with offers of $28 and $40 respectively.

COMMEMORATIVES: Gold Commems remain strong with numerous advances occurring for MS66 graded examples. A few scattered minus signs for lower priced issues in lower grade round out the chart. Silver Commems warrant a few declines, though continued support flourishes for those grading MS65 to MS66.

TYPE: Demand for Flowing Hair Dollars in XF and AU as well as the Draped Bust Dollars in those same grades have resulted in a handful of plus signs. A similar story holds true for the Flowing Hair Half Dollars in AU and the Draped Bust Halves, with Heraldic Eagle in XF and MS63. Within Proof Type, Buffalo Nickels, 1936-1937, are the sole highlight, with Bid now up to $1,300 in PR65.

GOLD: Gold is off a little from last report, but the chart more reflects the timidity of market makers to take a stand. Volatility (read: decreasing Spot) and ongoing cash flow concerns make for a situation where most would rather work with current inventory and sell at current levels while there is still a profit.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, ICG, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

Single copy price $4.00 Vol. XLVIII No. 10 March 5, 2010 *...a Friday morning report on the Coin Market*

WHERE OH WHERE ARE THE PQ COINS?
FROM MARYLAND TO TEXAS

The Market in Depth

Reports out of Nevada, where the Las Vegas Numismatic Society held its 47th Annual Coin Show, were upbeat. The 100 plus table affair concluded Feb. 28 with dealers noting that it was especially easy to sell quality and collector oriented material. This leads quite nicely into a discussion about perhaps many dealers' greatest concern in the current market. That is, the dearth of premium quality coins available for purchase. Dealers know PQ when they see it, especially within those series of greatest interest to their clients. Sure, few of us are the arbiter of PQ quality on a Dahlonega struck Gold coin, or the vagaries of the cut-off for New Orleans Morgan Dollars in MS64 and MS65, where the purchase or passing on a coin potentially means tens-of-thousands of dollars are at stake. Conversely, bulk dealers in Proof Sets and Mint Sets, and other packaged items, grope for quality material as well. Suffice it to say that within a dealer's sphere of interest, reports are that problem-free, fresh, original coins at all price points are vanishing.

Gold Spot continues its reign in four figures. Prior to 2008, $1,000 Gold was unprecedented. Indeed, in March 2008, Spot broke through $1,000 per ounce level for the first time in its history. It spent just a few days over $1,000 before slowly retreating to the low $700 range by the end of October of that year. Since October of 2009, Gold Spot has not closed below $1,000. While the excitement of daily world records, which were a feature of the pandemonium surrounding Gold in the final quarter of last year, may have subsided, the reality that many inventories are still stocked with bullion items purchased quite favorably are providing an ongoing afterglow and cash flow. Unfortunately, weather conditions in regions hardest hit, while having stabilized somewhat, still report delays in the delivery of registered mail and in the transport of bullion purchases. Counterfeits, both raw and slabbed, continue to haunt numismatic channels. A long-time bullion dealer reported examples of an Austrian 100 Corona walking into his shop that looked exceptional and had great strikes. Upon further examination, this dealer went on to report that not only was the weight of the coins incorrect, the material wasn't even Gold. The reminder here is that no matter how busy things get in your shop, take the time to weigh and test before you buy.

Dealers are already in Baltimore viewing lots and working deals in hotel rooms prior to the start of the expo. The Stack's pre-show auction is underway as we go to press. Host auctioneer, Bowers & Merena, is set to begin its sale Mar. 4, when the bourse of the Expo opens to the public and runs through Mar. 7. It is said with no understatement whatsoever that everyone is looking to this show as an indication of what is in store for the upcoming ANA show. The National Money show, which is set for Mar. 25-28 in Fort Worth, Texas, is traditionally one of the largest attended shows on the circuit and can make or break a dealer's year. Among the activities at this year's ANA are a members appreciation BBQ on March 24. In addition, Mar. 22-24, Brian Silliman, a former conservator and currently a grader at NGC, offers an intensive seminar on coin conservation, authentication and grading. Several free lectures, running 30-45 minutes each, will also be presented March 26-27.

This Week's Market

MERCURY DIMES: Some dealers are still indicating a desire to purchase select examples that are accurately graded in MS63 and better condition—certified or not—at Bid or higher. MS64FB-MS65FB and higher Ms. Winged Liberties remain strong throughout. However, this is one of the worst performing market segments since this bull run began nine years ago.

WALKING LIBERTY HALVES: 1935S and 1942S Walkers reach higher ground in MS65. Meanwhile, the short-set has its contingent of enthusiasts, that is to say, dealers willing to acquire accurately graded coins at the MS63 and MS64 tiers at present levels. The 1933S "hiatus coin" is needed by at least one dealer in every grade from XF40 through MS64 at Bid.

DOLLARS: Superb Gem Peace Dollars are in the news: The 1934, '34D, and '35S are up. The '34D rockets to $25,000—nearly double the previous level. Combined pop for all three issues in MS67 is 17 coins—3,2,2 and 5,2,3 at PCGS and NGC, respectively. San Francisco Minted Morgan Dollars are needed at $20 per for strictly graded AU coins while "O" Mints at the same grade level are needed at $22 per. The 2008S Sacagawea Dollar from Proof Sets is wanted in quantity at $7.50. The hyped pop 2 PCGS Proof 70 1995W ASE which made an internet auction appearance last week did not sell, apparently not meeting the reserve.

PROOF SETS AND MINT SETS: Sustained demand is present for most Proof Sets issued in hard plastic casing, though a few rogue sales for select issues winds up in a smattering of minus signs. Similarly, a quantity of 1958 Proof Sets are offered at a discount. These downward adjustments are counterbalanced by increases to select Silver Sets including 1995, 1997, 2001, and 2008, the latter of which is now Bid at $54.

COMMEMORATIVES: The lone Silver Dollar within Classic Commems increases in MS66 along with a handful of other issues in MS64 to MS66. Two minus signs are present, the Maryland Tercentenary in MS64 and the 1935 Texas PDS Set. Classic Gold Commems are mixed, though the net movement is trivial. A handful of Proof Silver Dollars from the Modern Commems are higher and needed in quantity.

TYPE: Uncirculated Type, perhaps the most subtle, yet quite possibly the most powerful indicator of overall market strength, is gloriously quiet on paper, but exuding pent-up demand just below the surface. Flying Eagle Cents are wanted at Bid in XF, AU and MS63 to MS65. Capped Bust Half Dollars are sought at Bid in MS63 to MS65. Chain Cents graded XF are wanted at $51,000—a $2,500 increase over the previous level.

GOLD: Spot continues life in $1,100+ territory, which is good news for dealers with sizable inventories. To be sure, there is a downward bias for Type as reflected in the US Gold Chart listing. However, even considering the world record high Bids achieved by select issues, dealers are recognizing that on a cost-averaging basis, they are still profiting on most of the Gold Type material remaining in inventory. Margins are beginning to narrow somewhat, as a possible response to the reduced demand compared to the fourth quarter of 2009.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

$13 MILLION CROSSES BLOCK IN BALTIMORE

PRETTY PENNY FOR A PRETTY PENNY

The Market in Depth

"Pretty good Baltimore Show", "probably the best Baltimore show in years" were among the comments we heard from participants. One noted dealer who specializes in Liberty Seated coinage offered this candid assessment: "It's not the rip-roaring market that it was 18 months ago, but it's recovering." This same dealer goes on to say what many others have stated, which is that foot traffic was quite heavy from the moment the doors opened to the public, and many new collectors were present, looking to fill holes in their newly begun sets. The pre-Baltimore Stack's sale, which garnered $4.2 million, did so on the strength of five-figure US coins and other numismatic desiderata. The Bowers & Merena auction realized a healthy $8.7 million on the strength of *six-figure* coins, top honors going to the 1913S Barber Quarter, PCGS MS68, at $327,750. Second place went to a likely candidate for the finest known $50 Pan-Pac Round, PCGS MS66, realizing $281,750. A third example in the six-figure realm is an 1879O Morgan Dollar, graded PR64 by PCGS. This cartwheel is housed in an old green holder, and hammered home $184,000. Another sale of note which took place in Baltimore was facilitated by Legend Numismatics of New Jersey and Washington dealer Brian Wagner. This monster coin reportedly sold for over $200,000, and is the finest known 1909 VDB Matte Proof Cent, graded as PR68RB★ by NGC/CAC, formerly in the John Story Jenks Collection. Adding to the action in Maryland, Richard Nachbar held a 24-lot sealed Bid sale, 17 lots being CAC endorsed, two of which with the very rarely given gold sticker. His auction realized a total of $271,702.

PCGS will set the stage in Fort Worth, Texas where on March 25 they will unveil "The Big One." PCGS execs, David Hall and Don Willis, have described what is on its way as a revolutionary new service, a service that is going to change coin grading for the better, and the next giant step in further protecting the consumer. The announcement and demo will take place at 10:30 a.m. in room 108 of the Fort Worth, Texas Convention Center, the site of the ANA's National Money Show. NGC might be on the brink of something new as well. A recently initiated high-profile discussion among the company's principles and members took place regarding including a PQ designation on its holders. NGC is also pondering the question of whether or not they should create their own marketplace to facilitate trading NGC graded coins. Exciting stuff appears to be coming our way from the world's two leading grading services. Realistic dealer expectations and balanced consideration of market conditions have perhaps resulted in a much healthier situation for the rare coin market than other comparable marketplaces, testifying, once again, the underlying business savvy inherent in the greatest hobby in the world.

This Week's Market

CENTS THRU HALVES: BU Lincoln Cent Rolls are rolling again with numerous increases throughout. Denver minted 1991 issues are now Bid higher at $13.25. Rolls of Dimes and Nickels dated 2009P,D are receiving as much as twenty times face value due to their scarcity. This will likely result in 2009 Mint Sets being destroyed in quantity as they will be cut up for these coins.

MERCURY DIMES: Four issues grading MS64FB are advancing, including '18S, '19D, '27D, and '28D, but they must be white or close to get all the money. Additional support for a wide range of Fully Split Band material has emerged in the past week. We are referring to visible Bids, whether on an electronic trading network, teletype/messaging system, published advertisements or in any legitimate venue for all to see.

WALKING LIBERTY HALVES: We see signs of life in this segment; no plus signs yet, but dealers are targeting a wider range of listings. Circulated Walkers remain in heated collector demand with rolls of XF quality coins fetching $160.

DOLLARS: The 1922S Peace Dollar has a buyer at $2,250, a $150 increase, for "real" Gems. Buyers remain in place for several five-figure Peace Dollars graded MS67 on the heels of last week's advances. Pre-1921 Morgan Dollars graded VF and better are needed in quantity, and are now Bid $18 each. The majority of semi-key Morgans remain in demand at current levels in MS64-MS65. DMPLs remain stable with no advances or declines in this report.

PROOF SETS AND MINT SETS: The usual suspects are wanted at or near Bid, large quantities preferred, clean packaging a must. The 2008S Silver Proof Set advances yet again, now Bid $56. A couple of select Mint Sets enter the positive ranks, with the particularly elusive 1961 among them.

COMMEMORATIVES: Solid support continues for most Silver Commems grading MS65 and MS66. Aside from a single decline from Gold Commems, this segment of the market remains healthy, with buyers available for nearly every issue grading MS64 through MS66. This demand includes the $50 Pan-Pac Round Slug, a PCGS MS66 example of which just sold in Baltimore for $281,750.

TYPE: Trade Dollars are now Bid $155 each in XF condition. Buyers are also available at current levels for Liberty Seated Half Dollars, No Motto, Arrows, and With Motto in like grade. Flowing Hair Half Dollars and Bust Half Dollars enjoy supporting Bids in XF, AU and MS60. Circ Type is nevertheless in dire need of attention from dealers that maintain a focus on such coins. There is a noticeable lack of Bidding attention for a number of issues, including Large Cents and Dimes. On a positive note for Circ Type, Flying Eagle Cents are up nearly 5% in AU, now Bid $130.

GOLD: Overwhelmingly positive movement and premiums that are increasing once again on Generic US Gold is the order of the day. Reports from Baltimore indicated that Generic Gold with CAC stickers are especially hot right now. Keep in mind that Spot increased a modest six dollars from last week to $1,123.60 today.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem [illegible]" [illegible]. In the Jefferson series, some of the rolls in the late 50's tend to be dark -these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem, full bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

ANA MONEY SHOW ON TEXAS HORIZON
CAC SCRATCH PQ FEVER

The Market in Depth

A formidable weekend of regional and local shows dominated the numismatic landscape this past weekend, and by numerous accounts, the newbies are out and about asking age-old questions like whether or not a $20 Liberty is considered bullion. Of course, then comes the age-old response for which dealers are famous: "Well it depends", says the dealer, as he does what he does best and hands the coin to the now wide-eyed neophyte for a look-see. Such Saturday and Sunday conversations, as the beginner gazes lovingly upon a big 'ol Gold coin, does a hobby make. The community is gearing up in earnest for the big ANA National Money Show and Heritage auction, in Fort Worth, Texas, March 25-28 (see highlights below). Plenty of action will take place this year, including a visit from the largest coin dealer in the world, the US Mint. Director Ed Moy will host a forum on upcoming products, March 27. Multiple exhibits will be in Fort Worth as well, including one of the five known 1913 Liberty Nickels. This coin, insured for $2.5 million, will be on display in Texas for the first time. In addition, PCGS will exhibit the finest collection ever assembled of $10 Indians.

CAC has announced that it will be business as usual with their grade approval service. Founder, John Albanese, notes: "Change may be in the air at one or more coin grading services, but dealers, collectors, and investors will find business as usual at Certified Acceptance Corp." He goes on to say: "CAC will continue to evaluate submissions, and determine whether to award stickers to those coins, strictly in the context of the basic numerical grades assigned by either PCGS or NGC." Perhaps anticipating PQ designations appearing on the grading services' holders, Albanese concludes in point-blank fashion: "We don't want buyers and sellers to get the impression that by stickering a coin, CAC is confirming someone else's "PQ" designation." It will be interesting to see how closely the CAC business model will be followed. Will the third-party grading services make markets in their own product with published buy offers? Will they give their own grades a grade (like A, B, C, D) where only "A" coins are designated as PQ? Such actions could increase the liquidity of top-end coins, where the sight-unseen market has served this purpose for *low-end* coins.

This Week's Market

MERCURY DIMES: A select group of Mercs grading MS64FB are still needed by at least one dealer. Another round of increases are in place in hopes of bringing some of these issues that are white, or nearly so, to market.

WALKING LIBERTY HALVES: Uncirculated Walkers remain popular with collectors with dealers willing to pay $600 plus for short-sets to satisfy their clients. Circ Walkers are also active and an excellent entry point for beginners. Mint-marked examples in XF are now Bid $8, while AU examples are bringing 20 x face.

DOLLARS: The monstrously desirable 1879CC, not the king of the CC's but certainly a prince-in-waiting, is now Bid $65K in MS67. There's some good news in MS64-65 grades, but it is balanced out by some minus signs including the prestigious and one-time 5-figure coin, the 1903S in MS65, which falters to $9,250. Fake Morgans are still showing up in counterfeit slabs. The latest examples have realistic, believable toning like that found on the real deal. Peace Dollars remain strong at current levels. Gem examples of the first-year-of-issue 1921 are now Bid $1,600, up $100 from last week. Those dated 1934 are needed in VF-XF, and have advanced by as much as 14%.

PROOF SETS AND MINT SETS: A wealth of Prestige Sets and Premier Silver Sets are higher as dealers trek to Texas. The 2008S 5-piece Quarter Set also finds a higher Bid, now at $39. Offers to sell some pretty nice looking Proof Sets from among the "classic" series 1936 to 1942 have almost unnaturally squeezed the Bid-Ask range on some of these because buyers remain in place at current levels. Mint Sets are being actively bought and sold, though upward pressure eases this week, perhaps signaling that the new, mostly higher levels, have fired up the channels of commerce.

COMMEMORATIVES: Solid support continues for most Silver Commems grading MS65 and MS66, yet CAC examples can often be found for Bid or less. Go figure. Gold Commems are mixed, but we continue to see demand by way of Bids across-the-board.

TYPE: A flurry of activity graces Mint State Silver Type for nearly all denominations and a wide range of grades from XF to MS65. Draped Bust Dimes gain $750 now Bid an even $10,000 in MS63, and Gem Bust Halves move up again, this time topping out at $7,900. There are also some decreases within Mint State. Of special note is the Twenty Cent Piece, represented in Type by the lone San Francisco issue, that being the 1875S. Proof Type appears quiet, yet visible buyers are available at or just under Bid for the majority of issues in grades PR60 through PR65.

GOLD: Gold traipsed a downward arc taking it eerily close to $1,100. The yellow metal is now on an upswing, at $1,122 up over 20% for the year. Gold Type is still adjusting, mostly downward for generics, looking for acceptable trading levels. A few of the better issues are actually higher in this report, including Type II Gold Dollars, MS62-MS64, and Type II $20 Libs in MS64-MS65.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

ANA CONVENTION BRINGS COMMUNITY TOGETHER
"EARLY BIRDS" SCRAMBLE TO GAIN ACCESS TO BOURSE

The Market in Depth

One indication that the hobby has undergone a consolidation since the start of the Great Recession is in evidence at this year's spring ANA. Last year, which was perhaps the emotional peak of the economic downturn, then host auctioneer Bowers & Merena conducted an ANA sale that realized a modest $2.5 million. Contrast that to two years ago when Heritage conducted a $9.7 million sale as the ANA host auctioneer. Also, an ANA Show—spring or fall—usually includes a weeklong calendar of unofficial "pre" show events. These events have been nothing short of a fully dressed bourse, a PNG Day, and/or auctions by one or more of the major houses. *Not so this year,* which, ironically, may result in a most positive side effect. There may very well be a greater concentration of market-makers and company principals on hand in Texas, so that when PCGS, for example, makes its announcement on March 25 of the "Big One" all will be there to respond and react simultaneously to the news. PCGS, incidentally, has just announced via its website that, effective March 25, all of that company's coin holder labels will employ an expanded barcode that takes advantage of all 22 digits, an increase of six digits from the bar code presently used. According to PCGS, the additional information will provide improvements in identifying and tracking inventory. Some believe that part of the information represented will specify whether a coin has earned a premium quality designation in addition to the assigned grade—a subject of fierce dialog within the hobby of late, including NGC and CAC.

There are major changes to the so called "Early Bird" privileges, which previously allowed any ANA member the opportunity to gain access to the bourse floor as much as one full day ahead of the public by paying a nominal fee. This year, Early Bird privileges are limited to Thursday, and just one half-hour prior to the doors opening to the general public. We are hearing reports that to bypass this restriction (and perhaps due to genuine economic considerations of their own) dealers that have purchased space on the bourse are offering to share that space with dealers that are looking to obtain a badge, which would allow them on the bourse as of Wednesday as opposed to Thursday.

Gold Spot continues to flirt with the $1,100 level, and in fact did close below that level at $1,099.30 before jumping back over $1,100 soon after. We are starting to see across-the-board Bidding taking place from a range of dealers for material as diverse as Proof Sets to DMPL Dollars, Mint State Type, Circulated Type, and "singles" from a variety of series. Perhaps market-makers believe that the worst of the economic downturn and its effect on the market for rare coins may be at an end. At the close of the ANA activities, dealers will venture to an array of local, regional and national shows including the Santa Clara Expo, set for April 9-11 and the Chicago International Coin Fair, April 22-25.

This Week's Market

CENTS THRU HALVES: Another round of increases have been recorded for select Lincoln Cent rolls from 1955 thru 2005. Last year's four new reverses and this year's union shield reverse have created much excitement in this market segment. A number of clad State Quarter rolls are down as dealers reevaluate their inventories. Kennedy Half Dollars are strong with several increases to report, the largest being a $225 Bid for 1970D rolls which were only available in Mint Sets.

MERCURY DIMES: Still waiting for this once most popular of series to find a wider range of supporters, it nevertheless includes willing buyers at or near present Bid levels for the 1942/41D in MS64FB and MS65FB. The same is true for the 1927D and 1923S in MS65FB, and a number of other issues in the same grade.

WALKING LIBERTY HALVES: The 1935S and 1942D advance to higher ground, while no issues get knocked down. This bodes well as buyers prepare to prowl the ANA bourse in search of "blast white" material; the only color on the palette that results in bringing the dollar amounts expected.

DOLLARS: DMPL Dollars are finally getting some real attention. Examples of the 1883CC, 1884CC, and 1885CC are Bid higher in Gem, building upon last week's interest in a few of the first year varieties dating 1878. Meanwhile, ordinary business strike examples of the 1879O and 1880 locate to higher ground as Bid rises to a cool $3,000 for the former and $650 for the latter in MS65. Peace Dollars incorporate a bevy of buyers for Choice examples at or near current levels. The inexpensive fare, from Ikes to Prez Dollars, are stable at current levels, except for the initial Washington Dollar, now available at $1.10/coin when purchased in roll quantity or greater.

PROOF SETS AND MINT SETS: The 2008 Legacy Proof Set continues to journey to higher levels as at least one dealer is willing to pay $120 per set. The 2008S Silver Proof Set jumps to a Bid of $40. The bullion sensitive material, 1961, 1962 and 1964 falter to $12.25 per Proof Set. A couple Mint Sets are slightly lower, including the 1970, now with an Ask of $13.50. Remember, dealers are paying $11.25 for the key 40% Silver Kennedy Half alone, and will take quantities.

COMMEMORATIVES: Silver Commems are mixed this week, and are still looking for direction by way of a promotion perhaps. Gold Commems remain strong, and continue to be dotted with plus signs nearly week after week. The 2010 Boy Scout Commemorative Dollar is now on sale, and is expected to sell all 300,000 minted quickly.

TYPE: Liberty Seated Half Dollars graded XF are targeted, three different types, in fact. At less than $100 per coin, it doesn't take much promoting to find eager buyers. A truly rare coin, the No Drapery Liberty Seated Quarter takes it up a notch to $29,000 in MS65. The population of the two services combined - and this no doubt includes repeat offenders - is 10 coins for this most austere Type in Gem.

GOLD: With the precious metals just under the $1,100 level, the prices for generic Gold Type coins meander even lower. However, a few better issues are increasing. This includes $2½ Indians in MS65, now at $3,200, and $20 High Reliefs in MS60 and MS63 at $12,600 and $22,500 respectively.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1944 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

HERITAGE HAMMERS $13.6 MILLION

The Market in Depth

ANA's National Money Show, held in Fort Worth Texas, concluded March 27, garnering mostly positive reviews. As is always the case for a big show, not everyone had their best outing of the year, and a number of reports indicated that, while expectations were met, greater effort than expected was necessary. Those that put in the extra work to make sales said that it did pay off. The change in "Early Bird" privileges had a noticeably negative impact on bourse activity according to many bourse dealers and show participants. On a more positive note, Heritage Galleries realized over $13.6 million as host auctioneer. Indeed, the prices realized exceeded prior Mid-Winter ANA shows. Some past auction totals include (in millions): 2004-$7.6; 2005-$6; 2006-$12.4; 2007-$11; 2008-$9.7; and 2009-$2.5. This year's higher total could be partly attributed to the presence of fewer auction houses and no pre-show sales. Highlights from the sale are included herein.

David Hall of PCGS launched his hyped presentation in Fortworth of the "Big One" by asking the audience to envision a hobby where coin doctoring and gradeflation are no longer an issue. Hall went on to introduce their new service and holder, named Secure Plus, designed to increase the confidence of collectors and dealers, as well as potentially increasing the value of select coins. There are three major points in this new service: 1) New hardware and software technology which creates a digital "fingerprint" of a coin. This will allow graders to recognize when a coin has been re-submitted, and gives them an opportunity to view high resolution images of the prior and current submission side by side for the purpose of identifying any artificial enhancements and holding the line on gradeflation. 2) A 700 point grading scale in-house to identify the coins considered premium quality in the marketplace, where the top 30% within a grade will receive a plus sign (+) as part of the grade on the holder. The plus designation will only be given to those coins grading XF45 thru MS68, with MS60 and MS61 excluded. 3) Increased liquidity, higher value, and sight-unseen trading of PQ coins. This may put an end to some of the manipulative sight-seen Bids on CCE because dealers will be required to accept a coin with a plus grade, sight-unseen, with no returns. Coins that are not high-end for the grade are now easily identifiable because they will not have a plus sign as part of the grade in the PCGS Secure Plus holder. NGC also announced on the same day in Texas that it will start designating plus grades within the next sixty days.

This Week's Market

MERCURY DIMES: This series has received a modicum of attention as dealers reposition themselves in the new marketplace, a marketplace that includes CAC, PCGS Plus, and in short order NGC PQ. Most Mercs with Fully Split Bands in grades MS64FB and higher have supporting Bids in place at or near current levels. Higher prices are being offered for a quartet of white, better date Full Bands in Very Choice in an attempt to pry them from strong hands and release them into the market.

WALKING LIBERTY HALVES: A large number of Walkers, both generic and key, in various conditions were offered at auction recently, and by and large they did quite well. Perhaps this series is ready for a resurgence when one factors in continuing support on the electronic trading networks and the emergence of various services to identify above average coins.

DOLLARS: Morgans are mixed, with declines slightly outnumbering advances. The 1879CC Capped increases in MS60 and MS63, while the "regular" '79CC scales higher in MS64 to $7,300. Peace Dollars are well supported in MS63 and higher with no discounted sales to dampen enthusiasm for this recent market leader series. Proof Sacagawea Dollars dated 2008S are hot with retailers, now Bid $9.25, as assembled sets remain popular and continue to be promoted.

PROOF SETS AND MINT SETS: Buyers are looking for quantities of the usual stuff – for some that means Mint Sets from 1959 to the present, for others it may be Premier Silver Sets, and for at least one dealer, it means Special Mint Sets. All in all, this segment is robust with the occasional discounted sell to relieve inventory resulting in a minus sign. The more recent Mint products are mixed with the regular 2008S 14-piece Proof Set climbing to $76 while the Silver version retreats to a $55 Bid. Homemade Mint Sets from 1982 and 1983 are needed at $30 and $35 respectively in order to fill the US Mint's void.

COMMEMORATIVES: Plus signs are always nice, and there are quite a few recorded this week for Classic Silver Commems. Unfortunately, Gold Commems are not as upbeat with the sale of an MS65 $50 Pan-Pac Round and an MS63 Octagonal necessitating a downward adjustment for both slugs.

TYPE: A number of popular, commonly traded Types – Barber Dime, Quarter and Half – all decline in grades MS63 to MS65 as recent auctions included numerous examples selling for discounted levels. Rare, low population Type coins, like the 1839 No Drapery Half Dollar, are finding buyers at Bid and above for solid material. Proof Type is similarly poised. There is some downward settling on readily available items, but witness in the highlight list at left a PR67 Liberty Seated Dollar bringing all the money at auction.

GOLD: Uncirculated Gold Type is down across-the-board through MS65 for nearly all denominations. With Spot back over $1,100 per ounce, Circulated Gold is mostly higher through AU58. The 2008W Uncirculated Gold Buffaloes advance to $2,900, $1,400, $1,450 and $525 for the 1 oz., ½ oz., ¼ oz., and 1/10 oz. coins, respectively. One year ago, these coins were $1,150, $585, $385 and $225. Proof versions have similarly increased.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVIII No. 15 April 9, 2010 *. . .a Friday morning report on the Coin Market*

GROWING PAINS FOR PCGS SECURE PLUS
THEFTS & COUNTERFEITS PLAGUE MARKET

The Market in Depth

Excitement is growing in the marketplace as more coins are submitted to PCGS for evaluation under the new Secure Plus service. And why not? It is no surprise that a service which provides a visible marker indicating that a coin is premium quality for the grade is eagerly anticipated. Those building registry sets are particularly enthused, as coins given a Plus designation will earn an extra half point. Such coins should be more liquid, as well as an easier sell for dealers. Astute collectors, in theory, have always been willing to pay premiums for premium coins. Not surprisingly, agreement between collector and dealer has not always been so easy. The very first reports involved some consternation, however, as dealers claim to have seen coins in the new Secure Plus holders deserving of the Plus qualifier, but no Plus designation was awarded. This may have occurred as a result of the flood of **re-holder** submissions at launch, where the coins were *not* re-graded, and therefore not given a Plus grade. Conversely, some coins have been observed with the Plus qualifier, but were not felt to be deserving. Such disagreements are expected in this new environment, of course, and as with any fledgling service, various wrinkles, learning curves and other glitches will undoubtedly require refinements over time.

An unfortunately necessary reminder regarding counterfeit coins has come our way, as a California dealer has reported purchasing $70K in "sandwiched" counterfeit Morgans. Another dealer recently discussed his encounter with a pair of Morgans that were split and sandwiched to appear as a 1903S in a PCGS holder graded MS63. Other reports have involved real Cartwheels in counterfeit holders. One example was an 1891CC graded PCGS65, which was thought by the observer to be an authentic coin, overgraded in a fake slab. Dealers have been urging each other to be on guard and take advantage of information and education from each other and from formal seminars designed to help, like the "Coin Conservation, Authentication and Grading" symposium held at the recent ANA. The Michigan State Numismatic Society will host another ANA one-day seminar entitled, "Introduction to Counterfeit Detection of United States Coins," held April 22 at the Hyatt Regency in Dearborn, Michigan.

Theft also continues to plague the rare coin industry. Spectrum Numismatics reported that an 1882 $5 NGC PR63 Cameo, one of only 48 minted, went missing in a shipment. In addition, Massachusetts coin dealer, Lano Balulescu, was the victim of a large theft involving over 100 coins stolen from his car. The burglary took place April 3rd, after Balulescu left a coin show in Westford, MA, and made a brief stop. The inventory stolen is estimated to have a value of over half a million dollars. A reward fund is in the initial stages of being formulated for information leading to an arrest. In addition, a rash of coins have gone missing in Southern California recently upon entering the delivery stream, and this involves multiple mail services, both public and private. It may not be long before the PCGS Secure Plus technology is used in a criminal case to assist authorities in the identification of stolen coins.

This Week's Market

CENTS THRU HALVES: Lincoln Cents continue the ascent as select issues like the 1959D move up to $2.80; the 1960D reaches $2.35, while the Small Date variety has a higher Bid of $4.30 per roll. Numerous issues from the 1990s are increasing as well, with the 1993D now Bid at $12. Bullion sensitive issues gain ground as Silver Spot closes above $18 for the first time in more than 2 months. The 2007S Silver Proof Utah Quarter is now pegged at $160 a roll.

MERCURY DIMES: The usual supporting Bids are in place, though we do find a number of issues sliding down, including the much better date 1918S in MS65FB declining to $5,250. The key to the series, 1916D, is off a bit in Good and Very Fine, now Bid $775 and $3,250 respectively.

WALKING LIBERTY HALVES: Though many are anticipating a resurgence in this series when the PCGS Plus coins start trading in quantity, unfortunately its all down right now. Common dates grading MS64 dip to $44 and Gems dated 1945 are now Bid $100. Mintmarked Circs are in greater demand, and are therefore higher in VF and XF.

DOLLARS: Common date Morgans in VF are needed at $17.50. Circ Morgans are wanted in quantity at posted levels, and buyers are quite visible, sellers are less so, especially now that Spot has closed above $18. The much desired 1893S was offered wholesale necessitating a downward adjustment to Bid in Very Good condition. A CAC approved 1924S Peace Dollar sold for $6,900 at auction. Bid on this issue dropped from $9,000 to $8,200, the latter representing at least one dealer's sight-seen buy price for this issue.

PROOF SETS AND MINT SETS: The 2008S American Legacy Set continues its legacy and treks upward to $125. The chart is dominated this week by minus signs as a substantial offering of select sets hits the market for discounted levels. Mint Sets are status quo, but just about everything from 1959 to the present has a buyer at or near Bid.

COMMEMORATIVES: Classic Silver Commems have visible buyers throughout MS65 and MS66 at current Bid, and Bidders will now be required to purchase PCGS Plus coins sight-unseen at these levels on the CCE trading network. Gold Commems reflect recent sales as three issues suffer declines.

TYPE: The esoteric 20 Cent piece claims a Bid of $1,000 for Choice examples, while the same will fetch $1,525 one grade higher. The sale of a Draped Bust, Small Eagle Dime at auction forces Bid down in the lofty MS65 column. Three Cent Silvers, Type I, II and III are sought at higher levels in grades G thru VF. So, too, is the Liberty Seated Half Dime, No Stars, which also includes an increase in the XF column to $165. Proof Type is a bright spot as five Liberty Seated issues move to higher ground in PR65, including both No Motto and With Motto Half Dollars at $6,050 and $3,600 respectively.

GOLD: $20 Saints and Type III Libs increase in grades VF20 through MS62 on the coattails of a rising Spot. Higher Gold has increased demand for several more issues in Circ grades, including the $2½ Indians, $5 & $10 Libs, and $10 Indians.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

CAC races on, closing in on the $150,000,000 milestone

CAC is about to pass another impressive milestone, soon to purchase more than $150 million of CAC verified coins from the dealer community. That is amazing considering CAC only entered the market a few years ago. But in that short time, CAC has become a powerful market maker for CAC verified coins, strongly backing those sporting the "green bean" as an active bidder in the market.

It's no wonder CAC confidently purchases stickered coins. If you want to easily identify and have confidence that a coin is solid for the grade - look for the CAC verification sticker.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVIII No. 16 April 16, 2010 *. . .a Friday morning report on the Coin Market*

MARKET COMEBACK GAINS MOMENTUM
PRECIOUS METALS CONTINUE SURGE

The Market in Depth

There has been a clear boost to the marketplace by virtue of the rollout of the PCGS Secure Plus service. The notion—if not quite the reality—that above average quality for the grade coins (PQ) can trade in a sight-unseen fashion has been the impetus for an across-the-board re-evaluation of Bids for both coins that trade sight-seen as well as sight-unseen. This week's charts reflect many positive increases as a result. From our perspective, the rules of the game have not changed. We will continue to accept any Bids that are offered in good faith, regardless of venue, so long as the details surrounding the Bid are provided or tendered at a venue where the rules are clearly articulated. In other words, a sight-unseen Bid without qualification for a PCGS or NGC graded coin—a coin that needs nothing further to recommend it apart from the grade on the holder are Bids that pertain to **Bluesheet** quality coins. If it is a sight-seen Bid, but it is clearly stated that the coins *do not* have to be significantly above average or PQ for the grade, such Bids continue to merit consideration for this publication. Sight-unseen Bids, including the requirement that a coin be labeled as PCGS Plus, CAC, or otherwise significantly above average or PQ for the grade, generally speaking, will not be ignored.

Dealer comments surrounding shows recently completed in Santa Clara and Florida reportedly exceeded expectations, suggesting that a market comeback is underway. Always keeping in mind that dealers find it necessary to travel from venue to venue with inventory, the show promoter in Florida received five separate reports that dealers were followed upon leaving the show. In an incident that took place on April 3, a dealer reported that after leaving a show and making a brief stop, a bag containing over $500,000 worth of coins was stolen, and further that only that bag was stolen indicating that whoever is responsible knew what to go after. A few of the items that were taken include: an 1839 Gobrecht Dollar graded PR61, numerous Seated Liberty Dollars from 1840 through 1871, including an 1870CC in a PCGS XF45 holder, and a 1795 Half Dollar with the Reiver Collection indicated on the NGC XF45 holder. A reward pool for information leading to the arrest and conviction of those responsible is now at approximately $45K and growing. Back to the good news: Platinum has forged its way to a 110 percent increase after achieving near-term lows around $790/oz. in Nov. 2008. Last week it broke through the $1,700 per ounce level. Gold has closed in recent days above the $1,160 plateau, and Silver has closed above $18.40 per ounce, reflecting levels that, while not world-record highs, are near-term highs going back to the beginning of the year.

All of the market activity from PCGS Plus to precious metal Spot prices is good news as dealers trek to upcoming shows which include the CICF scheduled for April 22-25, and the Early Copper fellas are having their private EAC Convention with an auction by McCawley-Grellman on April 24th in Annapolis, Maryland. Wrapping things up, the CSNS will take place April 28 in Milwaukee, WI, with an auction by Heritage.

This Week's Market

MERCURY DIMES: This remains one of the quietest market segments amongst those that are covered weekly. Dealers continue to place supporting Bids at or just below current levels, which is to say, it's business as usual here.

WALKING LIBERTY HALVES: A handful of late date Walkers lose some ground in MS65, with common date, sight-seen Bid now at $100. Support for the short-set remains strong in grades MS63 and MS64. PR64 Walkers fall from the $500 perch to $475. Many years ago, it was presumed that this Type was limited in practice to the 1942. Population data, however, suggests that until one reaches the PR66 level, the difference in availability is less than 10 percent at each grade, and some might argue that demand does not outweigh this difference.

DOLLARS: Advances are modest, but outnumber declines. Indeed, there is but one minus sign, though it is for VF examples of the "monster" key date to the series, the 1893S. Some believe there are a few too many of these presently available on the market for levels to be sustained in the VG to VF region. The better date 1886S is sought at higher levels in both MS66 and MS67. At least one dealer needs a quantity of common date MS63 Peace Dollars, thus, Bid moves up to $28.

PROOF SETS AND MINT SETS: The 2008S American Legacy Set makes yet another positive advance, this time to $130. Most of the Prestige Proof Sets priced under $50 are desired in quantity at elevated levels. Mint Sets are stable, with the vast majority from 1959 to date needed in quantity at present levels.

COMMEMORATIVES: Classic Silver Commems remain super strong, with buyers available for nearly 75% of the issues in grades MS65-66. Gold Commems are even stronger with a handful of advances to boot. Modern Commems, one of the most active market segments during the last two years, is dominated this week by the rise in Gold Spot.

TYPE: The marked presence of advances for Unc Type reflects the recent enthusiasm for collector friendly material, in particular, Classic Head Half Cents and Braided Hair Half Cents in MS63B and MS63RB. Amongst the Silver Type, increases are noted for Barber Dimes in MS64, Barber Quarters in MS63 and MS64, and the Barber Half Dollars in MS64. With respect to the Barber coins, there are also sight-unseen Bids very close to these levels where dealers will accept absolute worst-case examples at the assigned grade. Proof Type offers a similar story, though limited to fewer issues amongst which include: Two Cent Pieces graded PR63B-RB, and TIII Silver 3-Cent Pieces in PR63 and PR64.

GOLD: Pretty easy to see the trend here; Gold Spot is moving higher, and well over half of the listings on the US Gold chart from VF20 to MS64 are inclined to follow. The couple of minus signs adhere to the more esoteric $3 Princesses, which suffer a slight setback in MS63 and MS64.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.
